

# eBooks Q&A

## Answers to Frequently Asked Questions about Electronic Books

Does the library offer eBooks?	Yes!
How much do eBooks cost?	Library eBooks are <b>free</b> to borrow!
What do I need to get eBooks?	<p>A <b>computer</b> or <b>device</b> with <b>Internet access</b>, and a <b>card</b> from any <b>RCLS</b> (Ramapo Catskill Library System) <b>library</b>.</p> <p>You might also need <b>free software</b> (an “app”) to read eBooks on a device. The <b>help.OverDrive.com</b> website lists all the details on <i>what you need</i> based on <i>what you have</i>.</p>
Where are the eBooks?	<b>efiles.rcls.org</b> is the main “OverDrive” eBooks website.
Can I download eBooks on library computers?	<b>No</b> . You must use <i>your own</i> computer, eReader, smartphone, or compatible electronic device.
Should I get an eReader?	<b>You do <i>not</i> need an eReader</b> to enjoy OverDrive eBooks, but you might find one useful, especially if you travel.
Which eReader should I get?	<b>OverDrive.com</b> (our eBooks provider) lists which eReaders and other devices should work. You can reach their list via this link <b>www.thrall.org/odev</b> . Afterwards, you can <b>compare</b> devices (e.g. Nook vs. Kindle, iPad vs. PC) to see which one <i>you might prefer</i> based on price, capabilities, etc.
How do I login to eBooks?	Go to <b>efiles.rcls.org</b> , click the “ <b>Account</b> ” link. You will be asked to enter your <b>library card number</b> and your <b>PIN</b> (usually the last four digits of your phone number). If you <i>cannot</i> login, please call the library to determine if your library account is up-to-date and problem-free.
Which eBook format do I get?	<p>This mainly depends on <b>two things</b>: <b>first</b>, what <b>kind of eBook</b> do you want? One to <b>read on a screen</b> or one to <b>listen</b> to (an <b>eAudiobook</b>)?</p> <p><b>Second</b>, which eReader, device, or computer do you use? That’s important because some eBook formats <i>only work with certain devices</i>.</p> <p>When you click on an eBook, you can view its <b>details page</b> to see the <b>Available Format(s)</b> for that title.</p> <p>After searching or browsing, you can use the “<b>Filter Search</b>” options to <b>limit the list of titles to your device</b>.</p> <p>Some OverDrive eBooks can now be read <i>right within your Web browser</i>. When that is possible, you will see a <b>Read in Your Browser</b> button after you click the <b>Borrow</b> button.</p>

(Answers to Questions about eBooks continued)

Can I renew an eBook?	No, but you can <b>download it <i>again</i></b> once it's available!
Are there any late fines?	<b>Never!</b> eBooks stop working once their loan period ends.
Can I keep OverDrive eBooks?	<b>No.</b> OverDrive eBooks may be read only during the <b>loan period</b> assigned to those items when you checked them out.
Why not?	Because OverDrive eBooks, like other library items, are <b>copyrighted</b> . eBooks are also legally and digitally protected by <b>DRM</b> ("Digital Rights Management"), technology which <b>restricts</b> how, when, and where eBooks can be accessed.
Can I delete eBooks?	<b>Yes.</b> eBooks can be safely deleted from your computer or device at any time. Please consult your device's instruction manual for further guidance on deleting eBooks.
How do I transfer eBooks?	Only certain eBooks and eAudioBooks can be transferred to supported eReaders, computers, and devices. At the end of each eBook's details page (which you will see when you click on a title) you will find a " <b>Digital Rights Information</b> " section. Click "+" (plus) there to learn what each title permits.  Please visit <b>OverDrive's Help</b> site at <b>help.overdrive.com</b> for the specific instructions for your computer or device.
Why aren't more titles available?	eBooks must be purchased by libraries throughout the RCLS system, and electronic editions can be as expensive as (or many times more than) regular books. Some publishers also elect not to make certain titles available to libraries.
How do I reserve an eBook?	When you find an eBook you would like to request, just click the <b>Place a Hold</b> button next to the title. You will only see this button if you click on the eBook for its details page.
Are there other eBook providers?	There are many eBooks providers. Some offer free eBooks while others can require <b>purchases / subscriptions</b> and <b>special software</b> . A list of free eBook providers can be found through this guide: <b>www.thrall.org/booklovers</b> Just follow the " <b>eBooks &amp; eReading</b> " link once you're there.  <b>Warning:</b> If you try searching online for "free eBooks," please be aware that such seemingly "free" books might be pirated copies and illegally provided. Never download a file <i>unless</i> you can certify it is provided <i>legally</i> .
Are eBooks bad for libraries?	<b>Not at all.</b> Libraries offer readers and researchers a variety of content in <i>many</i> different formats. eBooks are simply <i>another media format</i> .
Are eBooks for <i>me</i> ?	eBooks have advantages or drawbacks, depending on each person's <b>lifestyle</b> and <b>reading preferences</b> – such as whether you prefer the <b>portability</b> of eBooks or the general freedom, <b>ease</b> , and <b>greater availability</b> of regular books in print. Why not give eBooks a try – especially since this <i>is</i> a <b>free service</b> – and discover <b>what works best for you?</b>  Since so many books (e.g. reference works) will <i>never</i> be available as eBooks (or in affordable editions), we also encourage you to continue exploring and enjoying the ever-growing number of free <b>print materials</b> and excellent <b>reference works</b> available right at your library!
