## Nonfiction Authors Spotlight: Steven D. Levitt & Stephen J. Dubner

These bestselling authors – the first an economist, the latter a writer / journalist / radio / TV personality – attained international fame after co-authoring *Freakonomics: A Rogue Economist Explores the Hidden Side of Everything*, a study of “how people get what they want or need, especially when other people want or need the same thing.”

Their sequel *SuperFreakonomics* further revealed thought-provoking (and sometimes shocking) conclusions through Levitt and Dubner’s intentionally unorthodox inquiries. In their latest title, *Think Like a Freak*, they go even further, suggesting unconventional approaches to solving problems.
