

# Searching the Web?

*Well, that's just the tip of the iceberg...*

**FACT:** Search engines show *only some of the information* available on a topic.

See *that?* That's the *tip of the iceberg*"

There is *way more*  
*\* information \**  
on and *beyond*  
the World Wide Web!

Some people call  
this *hidden information*  
the *Deep Web*  
or the *Invisible Web...*

...things search engines cannot  
ever reach or see or ever  
tell you about.

Then there's *all that other stuff that's not on the Web...*

...entire books, encyclopedias, ideas...  
information in so *many different forms!*

A librarian can help you find  
all the facts (plus some "treasures")
