Welcome to our 7<sup>th</sup> issue of *RE:refresh!* This is where Thrall's Reference Department updates you on its latest efforts to empower you with the *best* research tools and resources available! ## Library System Migration

Soon, in December 2011, the Ramapo Catskill Library System (RCLS), along with Middletown Thrall Library and other RCLS member libraries, will make the transition to new library system software called *Symphony*.

This transition will introduce some changes and options, including a new online library catalog, which you can preview at [www.thrall.org/newpac](http://www.thrall.org/newpac)

**New features** you can look forward to include:

- The ability to request specific volumes or editions of an item from home! This includes DVDs, magazines, multi-volume works, yearly editions of popular works, and other publications.
- The ability to select where – at what library – you would like to pick up items you have requested!
- The ability to pay for fines at home through PayPal.
- Telephone notifications will become an option. If you are not signed up for our free e-mail notification service, an automated telephone call will let you know when a requested item arrives. If you'd rather avoid the computer voice, we'd love to e-mail you! Just ask us to update your library account!

**Some other things to consider:**

- You will be able to check out items during this migration.
- Most of our databases should continue to be available.
- Only items physically presented at the Circulation Desk can be renewed during the migration.
- No library cards will be issued/ replaced during migration.

**Please note:** any lists you may have saved in Aqua-Browser's "My Discoveries" feature will *not* carry over to the new system, so please save or print them immediately.

## Three New Publications

[www.thrall.org/docs](http://www.thrall.org/docs)

As part of our ongoing information awareness efforts, we create and provide free publications to the public on topics such as research techniques, critical thinking, and more.

We recently published three new documents:

**Deeper Readings:** This is for readers who welcome some fresh ideas on getting more information, insight, and enjoyment out of what they read.

**Information Overload:** Tips and strategies for anyone confronting “too much information.”

**Maximizing Your Capacities:** Increase your ability to work with information.

Free copies of these publications are available in print at the library (by the Reference desk) as well as at our website (at the link above) in the “**Awareness**” and “**Readers' Advisory**” sections of our **Publications** page.

## Virtual Reference Library (VRL) Updates

[www.thrall.org/vrl](http://www.thrall.org/vrl)

Our “VRL” has *three* major additions:

**American Decades (2000 – 2009):** This continues upon **American Decades Primary Sources**, which covers the period from 1900 to 1999. American Decades is described by the publisher as “a cross-disciplinary source for junior and high school students and teachers, public librarians, and general researchers who need a single, consistent reference to document and analyze periods of contemporary American social history.”

**The Encyclopedia of Political Science:** From the publisher (CQ Press): “TEPS brings together a distinguished editorial board and over 600 distinguished and rising scholars to chronicle and assess the core issues that have long concerned students of politics. This comprehensive, multi-volume work traces the evolution of political theories, concepts, research frameworks, and political practices from across the world. As it examines the interplay of political ideas and processes, the encyclopedia also conveys the vitality and excitement of politics in practice.”

**Gale Encyclopedia of Children's Health** (2nd edition, 2011): An updated edition with over 200 new entries. Topics include pediatric diseases and disorders, physical, cognitive, and behavioral development issues, and more.

Members of Thrall can log in (with their library cards) to access these “always-available” reference works at home. *Anyone* can access these titles *within* the library.
