

Public Employer Health Emergency Plan
For
Thrall Public Library District of Middletown
and Wallkill
3-10-2021

March 10, 2021

*This plan has been developed in accordance with NYS legislation
S8617B/A10832.*

*This Plan is subject to change based upon guidance from federal, State or local
health officials with input from the Library's professional associations and
approval of Middletown Thrall Library's Board of Trustees*

**ADOPTED BY MIDDLETOWN THRALL LIBRARY'S BOARD OF TRUSTEES – 3-10-
2021**

Promulgation

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable.

This plan has been developed with the input of Middletown Thrall Library Clerks and Custodians Union (NYSUT) and the Professional Librarians Association of Middletown Thrall Library (NYSUT), as required by the amended New York State Labor Law.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of the Library District, or our valued employees under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

This plan has been approved in accordance with requirements applicable to the agency, jurisdiction, authority, or district, as represented by the signature of the authorized individual below.

--

As the authorized official of Thrall Public Library District of Middletown and Wallkill, I hereby attest that this plan has been developed, approved, and placed in full effect in accordance with S8617B/A10832 which amends New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable, to address public health emergency planning requirements.

Signed on this day: 3-10-2021

Purpose, Scope, Situation Overview, and Assumptions

Purpose

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

Scope

This plan was developed exclusively for and is applicable to Thrall Public Library District of Middletown and Wallkill. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use [CDC Guidance for Keeping Workplaces, Schools, Homes, and Commercial Establishments Safe](#). The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
 - After using the restroom
 - After returning from a public outing
 - After touching/disposing of garbage
 - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately
- Clean and disinfect workstations at the beginning, middle, and end of each shift
- Other guidance which may be published by the CDC, the State Department of Health, or County health officials.

Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed to largely reflect the circumstances of the current Coronavirus pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations.
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

Concept of Operations

The Director of Thrall Public Library District of Middletown and Wallkill, their designee, or their successor holds the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations, and adjustments to plan implementation may be supported by additional personnel, at the discretion of the Director.

Upon the determination of implementing this plan, all employees and contractors of Thrall Public Library District of Middletown and Wallkill shall be notified by Email, telecommunications or electronic posting on the Library's website, www.thrall.org and social media, with details provided as possible and necessary, with additional information and updates provided on a regular basis. Library staff, and members of the public will be notified of pertinent operational changes by way of Email, telecommunications or electronic posting on the Library's website, www.thrall.org. Other interested parties, such as vendors, will be notified by phone and/or email as necessary. Director or designee will maintain communications with the public and constituents as needed throughout the implementation of this plan.

The Director of Thrall Public Library District of Middletown and Wallkill, their designee, or their successor will maintain awareness of information, direction, and guidance from public health officials and the Governor's office, directing the implementation of changes as necessary.

Upon resolution of the public health emergency, the director of Thrall Public Library District of Middletown and Wallkill, their designee, or their successor will direct the resumption of normal operations or operations with modifications, as necessary.

Mission Essential Functions

When confronting events that disrupt normal operations, Thrall Public Library District of Middletown and Wallkill is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values that Thrall Public Library District of Middletown and Wallkill has identified as critical, those priority functions that are required or are necessary to provide vital services. During activation of this plan, all other activities may be suspended to enable the organization to concentrate on providing the critical functions and building the internal capabilities necessary to increase and eventually restore operations. Appropriate communications with employees, contractors, our constituents, and other stakeholders will be an ongoing priority.

Essential functions are prioritized according to:

- The time criticality of each essential function
- Interdependency of a one function to others
- The recovery sequence of essential functions and their vital processes

Priority 1 identifies the most essential of functions, with priority 4 identifying functions that are essential, but least among them.

The mission essential functions for Thrall Public Library District of Middletown and Wallkill have been identified as:

Essential Function	Description	Priority
Building and Grounds	Inspect crucial building infrastructure, conduct routine maintenance, place service calls to outside contractors as needed. Verify the integrity of the building structure, operating systems and collections.	1
Administration and Business Office	Process all Business Office transactions in accordance with State accounting regulations. Mail handling, payroll, accounts receivable, etc...	2
Materials /Circulation and Reference Services	Receive and process materials from vendors, The Ramapo Catskill Library System, and returned items from library patrons. Provide Reference Services, and building access to the general public (if possible) in accordance with guidelines established by Federal, State and local health officials	3
Information Technology	Disseminate information to the public via the library's website, (www.Thrall.org) maintain internet connectivity at the Library's computer workstations and via WiFi hubs. Maintain patron access to the electronic catalog of the Ramapo Catskill Library System and to the	3

	library's database collections. Place service calls to outside contractors as needed to maintain service.	
--	---	--

Essential Positions

Each essential function identified above requires certain positions on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site for the continued operation of each essential function. Note that while some functions and associated personnel may be essential, some of these can be conducted remotely and do not need to be identified in this section.

Essential Function	Essential Positions/Titles	Justification for Each
Building and Grounds	<ul style="list-style-type: none"> • Director • Head Custodian • Administrative Assistant 	Library staff with access to security key codes to enter the building, keys for access to all areas of the building and authorization to place service calls as needed.
Administration and Business Office	<ul style="list-style-type: none"> • Director • Principle Account Clerk • Administrative Assistant 	Staff necessary to authorize expenditures and process payments on behalf of the Library District, mail handling and sorting, payroll.....etc.
Materials/Circulation/Security	<ul style="list-style-type: none"> • Head of Circulation • Head of Adult Services • Head of Children's Services • librarians, security officers, and library clerks on an as needed basis 	Staffing required to receive deliveries and process materials transactions with the public and the Ramapo Catskill Library System. Staffing required to provide reference services to the public on premises. Security staff assists in the provision of curbside service and monitors the number of patrons allowed in the building pursuant to Library health protocols
Information Technology	<ul style="list-style-type: none"> • Library Assistant (full time) • RCLS Technicians and/or outside contractors as needed 	Monitor the library's computer network and connectivity to the internet. Maintain connection to the Reference and Circulation modules of the Automated Library System. Monitor and maintain function of staff and public computers.

Reducing Risk through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on public transportation

Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely
2. Approval and assignment of remote work
3. Equipping staff for remote work, which may include:
 - a. Internet capable laptop
 - b. Necessary peripherals
 - c. Access to VPN and/or secure network drives
 - d. Access to software and databases necessary to perform their duties
 - e. A solution for telephone communications
 - i. Note that phone lines may need to be forwarded to off-site staff

The director will make decisions regarding the staggering of shifts or authorization of employees working from home based upon advisories from Federal, State or local health officials and in consultation with the Library's Board of Trustees, Ramapo Catskill Library System staff and neighboring public library directors. The Library will procure the necessary technology equipment to facilitate the staggering of shifts or employees working from home.

Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, Thrall Public Library District of Middletown and Wallkill will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will be staggered
2. Approval and assignment of changed work hours

The director in consultation with the Library District's Department Heads will identify positions for which work hours will be staggered and will approve the assignment of changed work hours.

Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face shields
- Gloves
- Disposable gowns and aprons

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are

including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
 - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee and contractor during any given work shift for at least six months or as long as necessary.
 - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
3. Storage of, access to, and monitoring of PPE stock
 - a. PPE must be stored in a manner which will prevent degradation
 - b. Employees and contractors must have immediate access to PPE in the event of an emergency
 - c. The supply of PPE must be monitored to ensure integrity and to track usage rates

Thrall Public Library District of Middletown and Wallkill will supply and keep in stock a variety of PPE for staff use including, masks, gloves, face shields, cleaning and sanitizing wipes, ultraviolet wands, and hand sanitizer. Sanitizing and cleaning products will be stocked for use in cleaning the building. We currently purchase PPE supplies from the following vendors: Janway, WB Mason, Amazon, and EA Morse the business office maintains a list of specific vender contact information. Should there be a scarcity of PPE we will seek to obtain necessary PPE from alternate vendors

Staff Exposures, Cleaning, and Disinfection

Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following CDC guidelines, we have established the following protocols:

- A. If employees or contractors are exposed to a known case of communicable disease that is the subject of the public health emergency (defined as a 'close contact' with someone who is confirmed infected, which is a prolonged presence within six feet with that person):
 1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing for the lesser of 14 days or other current CDC/public health guidance for the communicable disease in question.
 - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
 - b. The Library Director, Administrative Assistant or designee must be notified in the event of an exposure and is responsible for ensuring that these protocols are followed.
 - c. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing
- B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency:
 1. Employees and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.

2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.
 3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC/public health guidance and have consulted with a healthcare provider.
 4. Thrall Public Library District of Middletown and Wallkill will not require sick employees to provide a negative test result for the disease in question or healthcare provider's note to validate their illness, qualify for sick leave, or return to work, unless there is a recommendation from the CDC/public health officials to do so.
 5. CDC criteria for COVID-19 provides that persons exhibiting symptoms may return to work if at least 24 hours have passed since the last instance of fever without the use of fever-reducing medications. If the disease in question is other than COVID-19, CDC and other public guidance shall be referenced.
 6. The Library Director, Administrative Assistant or designee must be informed in these circumstances and is responsible for ensuring these protocols are followed
- C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:
1. Apply the steps identified in item B, above, as applicable.
 2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
 - a. CDC guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC/public health guidance for the disease in question will be followed.
 - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
 - c. See the section on Cleaning and Disinfection for additional information on that subject.
 3. Identification of potential employee and contractor exposures will be conducted
 - a. If an employee or contractor is confirmed to have the disease in question, The Library Director or their designee should inform all contacts of their possible exposure. Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).
 - b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.
 4. The Library Director, Administrative Assistant or designee must be notified and is responsible for ensuring these protocols are followed

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow CDC/public health recommendations and requirements and coordinate with our local public health office for additional guidance and support as needed.

Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum.

- a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected at least hourly.
 - b. Custodians and Cleaners are responsible for the daily cleaning of common areas of the library
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task.
3. Soiled surfaces will be cleaned with soap and water before being disinfected.
4. Surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which Thrall Public Library District of Middletown and Wallkill is committed to reducing the burden on our employees and contractors. The *Families First Coronavirus Response Act* provided requirements related to the COVID-19 pandemic, which form the policies outlined below. This policy may be altered based upon changes in law or regulation, as applicable.

It is our policy that employees of Thrall Public Library District of Middletown and Wallkill will not be charged with leave time for testing. Employees will be provided with up to two weeks (80 hours) of paid sick leave at the employee's regular rate of pay for a period which the employee is unable to work due to quarantine (in accordance with federal, state, or local orders or advice of a healthcare provider), and/or experiencing symptoms and seeking medical diagnosis.

Further, Thrall Public Library District of Middletown and Wallkill will provide up to two weeks (80 hours) of paid sick leave at two-thirds the employee's regular rate of pay if the employee is unable to work because of a bona fide need to care for an individual subject to quarantine (pursuant to federal, state, or local orders or advice of a healthcare provider), or to care for a child (under 18 years of age) whose school or child care provider is closed or unavailable for reasons related to the public health emergency, and/or the employee is experiencing a substantially similar condition as specified by the CDC/public health officials. This provision may be modified if an employee is able to effectively work remotely and the need exists for them to do so.

Additionally, Thrall Public Library District of Middletown and Wallkill will provide up to an additional 10 weeks of paid expanded family and medical leave at two-thirds of the employee's regular rate of pay where an employee, who has been employed for at least 30 calendar days by Thrall Public Library District of Middletown and Wallkill is unable to work due to a bona fide need for leave to care for a child whose school or child care provider is closed or unavailable for reasons related to the public health emergency. This provision may be modified if an employee is able to effectively work remotely and the need exists for them to do so.

Additional provisions may be enacted based upon need and the guidance and requirements in place by federal and state employment laws, FMLA, executive orders, and other potential sources.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of Thrall Public Library District of Middletown and Wallkill, and as such are not provided with paid leave time by Thrall Public Library District of Middletown and Wallkill unless required by law.

Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits. This information may be used by Thrall Public Library District of Middletown and Wallkill to support contact tracing within the organization and may be shared with local public health officials.

Timesheets reflecting hours worked will be submitted on a biweekly basis to the Administrative Assistant either in hard copy or electronic format. The Administrative Assistant and the Principle Account Clerk are responsible for processing payroll for Library District staff.

Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will help prevent the spread of the subject communicable disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of Thrall Public Library District of Middletown and Wallkill's essential operations.

If such a need arises, hotel rooms are expected to be the most viable option. If hotel rooms are for some reason deemed not practical or ideal, or if there are no hotel rooms available, Thrall Public Library District of Middletown and Wallkill will coordinate with the City of Middletown and Orange County Emergency Management to help identify and arrange for these housing needs. The Library Director will be responsible for coordinating this.
