

eBooks FAQ

Answers to Frequently Asked Questions about Electronic Books

- Does Thrall offer eBooks?** Yes! We offer both **eBooks** and **eAudioBooks**.
- How much do they cost?** eBooks available through our library system (RCLS) are **free!**
- What do I need to get eBooks?** A **computer with Internet access** and an **active library card** from Thrall or any **RCLS** (Ramapo Catskill Library System) library. You must install **free software** from the **eBooks website** (efiles.rcls.org) on your **personal computer** or **smart phone**.
- Can I download eBooks from Thrall computers?** **No.** You must use your own computer or smart phone to connect directly to the eBooks website (efiles.rcls.org) to download eBooks.
- Should I get an eReader?** You do not need an eReader to enjoy RCLS eBooks: all you need is a computer or smart phone that supports the software required for eBooks access.
- Which eReader should I get?** You can go to **www.Overdrive.com** (the home page of the eBook provider for RCLS), you can click on the **Explore Compatible Devices** link to determine which eReaders are said to work with RCLS eBooks. From there, you should visit each eReader's product manufacturer website to learn of each eReader's abilities or limitations before deciding which one to buy.
- How do I login to eBooks?** Go to efiles.rcls.org, click **My eAccount**, then enter your **library card number** (without spaces) and your **PIN** (usually the last four digits of your telephone number). If you cannot login, please contact our **Circulation Department** (341-5456) to determine if your library account is active, up-to-date, and problem-free.
- Which format should I get?** This depends on **two things: first**, what **kind of book** do you want? One to read on a *screen* or one to *listen* to? **Second**, what **eBook or audio file formats** your computer, eReader, or smart phone support. Each eBook's item page lists the **format(s) available** for that title. For further guidance, please visit www.Overdrive.com for their list of **Compatible Devices**.
- Can I renew an eBook?** **No**, but you can **download it again** if it becomes available.
- Are there any late fines?** No. eBooks become inaccessible **after your loan period expires**.

(continued on back page)

(Answers to Frequently Asked Questions about Electronic Books continued)

- Can I keep the eBooks I get?** **No.** Electronic books provided by RCLS are accessible only for the **loan period** assigned to those items when you check them out.
- Why not?** Because eBooks are just like any other library item in that they are **copyrighted**. RCLS eBooks are also protected by **DRM** (“Digital Rights Management”), which **restricts** how long and in what ways eBook files can be accessed.
- Can I delete eBook files?** **Yes.** eBooks can be safely deleted from your eReader, personal computer, or smart phone at any time. Please consult your device’s instruction manual for further guidance on deleting downloads.
- How do I transfer an eBook?** Only certain eBooks and eAudioBooks can be transferred to supported eReaders, computers, portable media (MP3) players, smart phones, or burned CDs. Near the bottom of each eBook’s item page you will see a **Digital Rights Information** section: this lets you know what you can do with each title. Use this, along with the **Plays On** list (near the top of that item’s page) to determine if you can transfer your eBook or eAudioBook from your computer to a supported eReader, portable media (MP3) player, or CD.
- Why are so few titles available?** eBooks must be purchased by libraries throughout the RCLS system, and electronic editions can be just as expensive as regular books. Due to issues including **higher-than-print prices**, certain titles being **unavailable to libraries**, and **higher demand for print materials**, fewer eBook editions are available.
- How do I reserve an eBook?** When you find an eBook you would like to request, please click the **Place a Request** link on that item’s page.
- What about other eBooks?** There are *many* eBook providers beyond Overdrive / RCLS. Some are free, others require **purchasing** and **special software** of their own. For some **free eBook providers**, please visit our **Booklovers** guide at www.thrall.org/booklovers and click **eBooks & eReading**.
Middletown Thrall Library also offers its members **free access** to its **Virtual Reference Library** (see www.thrall.org/databases or www.thrall.org/vrl). The VRL contains excellent and always-available online reference works and specialized encyclopedias.
Warning: If you want to attempt to search the Web for additional eBooks, please be aware that almost all modern/contemporary eBooks (unless otherwise and authoritatively stated to be in the public domain) are still **subject to copyright laws** and **should not be downloaded** *unless* you can certify they are provided **legally**.
- Are eBooks bad for libraries?** **Not at all!** Thrall has offered electronic books for *years*, along with books and other materials in many other formats (print, CD, digital “Playaways,” microfilm and microfiche, cassettes, and more). eBooks are simply *another media format*. Based on feedback from our many library users, eBooks have both their advantages and drawbacks, depending on a person’s **lifestyle** and **reading preferences** – such as whether you prefer the portability of eBooks or the ease and **greater availability** of books in print. We encourage you to try eBooks – especially since this *is* a **free service** – and discover what works best for you. Since many books will *not* be available as eBooks, we also want to encourage you to continue exploring and enjoying the **growing number of great print materials** and **reference works** available to you at Thrall.
